

# Let's Talk About PROPERTY MARKING

## 5 MINUTES 5 TIPS

#LetsTalkAboutCrime

1

Record your valuables and property serial numbers by using **immobilise.com** - a free property recording website that helps the police identify owners of recovered property every day. On the site you can create a private and secure log of all your personal property including adding photographs.

2

Use property marking products like UV pens and forensic marking solutions to protect your valuables. This can help police in returning the item to you and could provide valuable evidence in court.

3

Use the window and property stickers that come with the property marking products to deter thieves from targeting your home or valuables. Visit our website to find out more about property marking.

4

Buy **Sold Secure** locks and chains and mark your property to keep it safe. **Secured By Design** sell products specifically to keep your property secure: [www.securedbydesign.com/members](http://www.securedbydesign.com/members).

5

Download security apps like **Find My iPhone** to your mobile phone or laptop. They record, track and wipe your items of their memory, should they get stolen. Some even show you a photo of the person who's taken it. Keep the app updated with the latest version.

**For more information about how to keep your home and your property secure by marking them, visit:**
